### Examiner's Statement of Reasons for Allowance

Claims 1-24 are allowed because the prior art does not disclose or suggest a wristwatch comprising a casing with top and bottom parts, an upper housing formed as an integral unit with transparent top and bottom panels, drive shaft means extending through the bottom panel, means for releasably securing the upper housing to the top part of the casing, the drive means releasably coupled to the drive shaft, a replaceable watch face situated below the bottom transparent panel and above the casing top part. The Nunes appears to be the closest prior art; however the reference lacks the upper housing positioned atop the top of the casing (claim 1), the drive means of the movement releasably coupled to the drive shaft (claims 1 and 21), the means for releasably securing the upper housing to the casing top part and the replaceable watch face situated above the casing top part (claims 19-20).

### Drawing

The drawing appears informal for the following reasons: the reference numerals, lines and letters are rough and blurry. See 37 CFR 1.84. Formal drawings correcting these deficiencies are required.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vit W. Miska whose telephone number is 571-272-2108. The examiner can normally be reached on M-F 9-5:30.
